Subject: Investment platforms

EFSI investment platforms, as defined in the EFSI Regulation, are key tools for financing project portfolios with a thematic or geographical focus (attracting investors, including NPBs) and are strongly supported by the Commission, the EIB Group, national promotional banks, and other important partners. Could the Commission give some examples of (thematic or geographical) investment platforms approved so far under the EFSI? In which Member States do they operate? What are the sums involved? How are the platforms organised and what sectors or (for geographical platforms) areas do they cover?
