

**Question for written answer E-002879/2017
to the Commission**
Rule 130
Ingeborg Gräßle (PPE)

Subject: Waste disposal facilities in Lebanon.

In an article in the newspaper 'L'Orient le Jour' of 12 November 2016¹ it is claimed that the EU has funded dozens of waste disposal facilities in Lebanon, several of which have been burned. No investigations were carried out.

1. How many such waste disposal facilities has the EU funded in Lebanon, and what amounts were involved?
2. Which of the waste facilities co-funded by the EU were burned, and when?
3. Were any investigations carried out by the Commission? If so, what were the results of the investigations? If not, why was it decided not to launch an investigation?
