

Question for written answer E-004104/2017
to the Commission
Rule 130
Daniel Hannan (ECR)

Subject: Capital gains tax in Portugal

Could the Commission please clarify whether Portuguese domestic law on capital gains tax on properties conforms with EU law?

Since the ECJ judgment in Case C-443/06, has the Portuguese Government amended the discriminatory law that taxes residents on 50 % of the gain, while taxing non-residents on 100 %?

Evidence suggests that the law is still in place, with EU citizens being treated as non-residents.
