

**Question for written answer E-006449/2017
to the Commission**
Rule 130
Enrico Gasbarra (S&D)

Subject: Proposed revision of Directive 2010/18/EU

Referring specifically to the opinion of the Commission's Regulatory Scrutiny Board, the impact assessment preceding the proposal to amend Directive 2010/18/EU takes a highly critical view on the question whether the proposed legislation – that is to say, the earlier version of the proposal – could properly take into account the multiplicity of factual and legal situations in the Member States.

Can the Commission comment in clear and favourable terms on the European added value provided by this legislation, bearing in mind in particular that the European legal frameworks in place are, in many respects, proving difficult to implement?
