

**Question for written answer E-007801/2017
to the Commission**

Rule 130

William (The Earl of) Dartmouth (EFDD)

Subject: Funding to Cinando.com

Can the Commission clarify why Cinando.com received hundreds of thousands in funding to develop some projects last year (including for subtitles)? What were the projects? How was the money spent? Why did it cost that figure? Under the Milky Way also got funding for developing subtitles. Two rival companies funded for the same thing. What about the projects now, the R&D, the 'innovative' projects?
