

**Question for written answer E-003700/2018
to the Commission**

Rule 130

William (The Earl of) Dartmouth (EFDD)

Subject: Recycled waste to Asia

The EU sends recycled waste to Asia to take advantage of poorly enforced environmental regulations.

Can the Commission advise what percentage of waste shipped to Asian countries is actually recycled by EU Member States?

Which EU Member States send 'recycled' waste to Asia?

To which countries in Asia is the waste sent?
