Subject: Transparency regarding the implementation of Directive 2012/34/EU

Directive 2012/34/EU had to be transposed by 16 June 2015. On 8 March 2018, the Commission launched an infringement procedure against France (infringement number 20172197). I could, however, not find any information about the grievances addressed to France. In order to fulfil my role as elected representative and as former shadow rapporteur on this directive, I ask the Commission:

1. Will the grievances against France in the aforementioned procedure – or else the main elements of them – be made available to the public?
2. If not, why not?
