

Question for written answer E-006022/2018
to the Commission
Rule 130
Eugen Freund (S&D)

Subject: Directive 2011/70/Euratom establishing a Community framework for the responsible and safe management of spent fuel and radioactive waste

Pursuant to Council Directive 2011/70/Euratom of 19 July 2011 establishing a Community framework for the responsible and safe management of spent fuel and radioactive waste, infringement proceedings for failure to adopt a national programme compliant with the requirements of the Directive have been launched against 16 Member States. Furthermore, the Commission announced that it wants to analyse Member States' approaches to the development of national inventories, and specifically the classification systems used therein. In addition, Member States are obliged to submit national reports on the implementation of their national programmes every three years.

1. Can the Commission please specify the nature of the instances of non-compliance?
2. What are the results of the periodic international peer reviews of the national programmes?
3. How many second national reports have been submitted to the Commission to date?
