

**Question for written answer E-000467/2019  
to the Commission**  
Rule 130  
**Boris Zala (S&D)**

Subject: Anti-vaccination movement

Following Written Question E-007621/2017 to the Commission by María Teresa Giménez Barbat and the Commission's answer, a Recommendation on strengthening EU cooperation against vaccine preventable diseases was adopted by the Commission in December 2018.

Despite all the actions taken in 2018, there is still an ongoing campaign on social media and other platforms by vocal anti-vaccination activists.

What direct action will be taken by the Commission to strengthen the dialogue with citizens?

How the does the Commission plan to raise awareness to combat the rapid spread of disinformation?
