

**Question for written answer E-000476/2019
to the Commission**
Rule 130
Theodoros Zagorakis (PPE)

Subject: Letters of formal notice regarding correct transposition of energy efficiency directive.

15 EU Member States have received letters of formal notice from the Commission regarding the correct transposition of Directive 2012/27/EU on energy efficiency. As can be seen from the relevant progress reports also (COM (2015) 0574), the 2020 strategy objectives have not yet been met. The directive introduced a mandatory set of measures to help Member States achieve energy-saving targets and legally binding rules for energy end-users and suppliers. The letters of formal notice give the countries concerned, including Greece, two months to reply to the Commission's observations.

In view of this:

What is the Commission's response to these findings? Can it provide specific information regarding Greece?
