Subject: Possible case of geoblocking in Malta

I have been informed that in the case of Malta, one is not able to view the Sky News Live 24-hour news streaming services online, neither on YouTube nor via Sky App.

1. Does the Commission consider this to be a case of geoblocking?
2. What is the Commission doing to ensure that Maltese citizens receive the same services as in other Member States?
3. What measures is the Commission taking to ensure that the Geoblocking Regulation is properly implemented at Member State level?
