Subject: Interreg 'Greece - Cyprus' cooperation programme

European territorial cooperation at transnational and interregional level has over time become an integral part of European cohesion policy. From 2007 to 2013 and over the subsequent period, the Greece-Cyprus programme has supported major projects by providing a framework for joint initiatives by all stakeholders.

In view of this:

Does the Commission have any information regarding current budget take-up in Greece and Cyprus?

What provisions have been envisaged for the Interreg 'Greece - Cyprus' cooperation programme over the 2021-2027 period?
