

Question for written answer E-003046/2019
to the Commission
Rule 138
Maria Grapini (S&D)

Subject: Functioning of the internal market

The internal market depends on fair competition between companies, including those from third countries exporting to the EU market.

In view of this, what action will the Commission take to step up checks on products from third countries for compliance with quality standards and social requirements and in response to the dumping prices still applied by many third-country producers?
