Subject: EU funds to address the refugee problem in Greece

The refugee problem is one of the most pressing problems currently facing Greece due to the fact that the country's reception facilities are vastly overcrowded. At the same time, the take-up rate for funds allocated by the Commission seems to be insufficient.

In the light of the above, will the Commission say:

1. What is the total amount allocated by the Commission to Greece to address the refugee problem? Which sectors have benefited?
2. What has been the take-up rate for these funds by the Greek government since funding began?
3. Is there a list of NGOs that have received EU funding?
