

**Question for written answer E-003824/2019/rev.1
to the Commission**

Rule 138

Christine Anderson (ID), Charlie Weimers (ECR)

Subject: Commission programme 'Sport as a means of integration and social inclusion for migrants'

The Commission has set up a programme to promote, among other things, the 'exchange of successful methods for integrating migrants' through sporting activities. This encompasses various projects such as SFR-2287CF34 in Germany (EUR 240 000) and SFR-A72056BB in Italy (EUR 200 740).

How many so-called migrants (broken down by age, gender, country of origin and project supported) are taking part in the programme?

EUR 2 million have been set aside for the programme in the 2016-2018 funding period. What results are known to the Commission (with an indication of the survey and evaluation methods) in terms of successful integration?

German football is seeing an increase in violent incidents. A whole team (BV Altenessen 06 II) was recently suspended after players and the coach attacked the referee. The names of players would indicate a migrant background (due to EU-data protection rules their names can not be published)

Does the Commission programme include measures to prevent similar outbreaks of violence in sport from happening in the context of the projects? If no such measures have been put in place yet, how might the Commission support the Member States in the fight against acts of violence in sport carried out by migrants?
