Rule 138

Subject: Situation in Bama and Boko Haram

In previous years, in Nigeria, many people fled from the terrorists of the Islamist group Boko Haram to the town of Bama, where there has been starvation and a shortage of healthcare provision.

What is currently known about the situation in the refugee camp in Bama in general and, in particular, about how many adults and children are there, about healthcare provision and about supplies of water, food and clothing?

What action is being taken at EU level to bring about both short-term and lasting improvements in the situation in Bama?

What influence does the terrorist group Boko Haram currently have in Nigeria, and in particular in Bama?
