Subject: Leaving the EU for Syria and Iraq to support Islamist groups

To the Commission’s knowledge, how many people – broken down by year and Member State – have left the EU Member States since 2011 for Syria and Iraq to join Islamist groups such as ISIS?

What is the breakdown of these people in terms of gender, age, nationality and possible migrant background?

How many of these people have died there since 2011 as suicide bombers or in combat (please give separate figures for each)?
