

**Question for written answer E-002244/2020
to the Commission**

Rule 138

Viktor Uspaskich (Renew)

Subject: Aid to the sectors most affected by COVID-19

Many Member States have imposed strict quarantine conditions, leading to the closure of catering and educational establishments, the tourism sector and most service businesses. This also has repercussions for the property rental market, as people and businesses are no longer able to pay rent due to the suspension of their operations.

What measures will the Commission take to reduce the number of bankruptcies in these sectors and to reduce the impact on other sectors?
