Question for written answer E-002440/2020 to the Commission
Rule 138
Morten Petersen (Renew)

Subject: COVID-19 outbreak: dealing with refugees and migrants

Following the informal meeting of Member State interior ministers on 24 March 2020, can the Commission provide a list of the Member States that are continuing to redistribute unaccompanied minors from Greece?

Can the Commission also explain what measures have been taken in a number of Member States to prevent infection among refugees and migrants?

Lastly, can the Commission elaborate on what precisely this means when Member States have suspended Dublin transfers of asylum seekers to other Member States (Dublin Regulation), as part of the general effort to limit travel, and what the solution in question is when a number of Member States are asking the Commission to act to find a solution in order to suspend the time limits for transfers under the Regulation?
