

**Question for written answer E-003223/2020  
to the Commission**

Rule 138

**Ruža Tomašić** (ECR)

Subject: Red meat production

How will the Commission help producers who have invested in the production of red meat (pork, beef, lamb) under the CAP budget switch to a new production method, considering that red meat production will not be profitable according to AgriDemo-F2F? Does the Commission not consider this a kind of loss on EU investments made to date?
