

**Question for written answer E-004259/2020
to the Commission**

Rule 138

Roman Haider (ID), Georg Mayer (ID)

Subject: Fourth Brussels conference on supporting the future of Syria

The fourth Brussels conference on supporting the future of Syria and the region ¹ took place recently.

1. EUR 4.9 billion were pledged for Syria and the main host countries for Syrian refugees. What are the host countries involved, which specific partial amounts are due to flow to these host countries, and to which organisations, whether governmental or private, will the specified amounts be paid?
2. High Representative and Vice President Josep Borrell has noted that the nearly ten-year war has displaced half of the Syrian population from their homeland. Is it a stated political objective of the Commission, especially in view of the immense amounts of money that it has already made available in response to the Syrian crisis, that this displaced part of the Syrian population should return to their home country Syria after the conflict there has ended?
