

Question for written answer E-004577/2020
to the Council
Rule 138
Christine Anderson (ID)

Subject: Classification of Antifa as a terrorist organisation

I refer to the question to the Commission concerning 'Antifa', which is also active in the Member States. It is known to be violent. Political violence against parties in Germany is mostly directed against elected AfD representatives and institutions ¹.

Will the Council take the same action as the US and place Antifa on the list of terrorist organisations?
