Subject: Support for Libyan border authorities from EU agencies

The European Union is training the Libyan Coast Guard and Navy, and the maritime police, in various ways. In addition to the EUNAVFOR MED SOPHIA and IRINI operations, activities are also carried out by Frontex and EMSA, as well as by the EUBAM Libya CSDP mission.

1. In which capacity-building projects are the Libyan border and police authorities currently being supported by Frontex, EMSA and the EUBAM Libya CSDP mission?
2. Precisely what workshops did Frontex and EMSA, as well as the EUBAM Libya CSDP mission, run in 2019 and 2020 for the benefit of which Libyan border and police authorities, and what was the content of these?
3. Are pilot projects for establishing (border) police stations in Libya also being supported?
