

**Question for written answer E-005028/2020
to the Commission**

Rule 138

Robert Roos (ECR), **Rob Rooken** (ECR)

Subject: Antibody testing

The Commission has published recommendations for testing strategies. It is also promoting dialogue with Member States at several levels, ensuring the exchange of information, the monitoring and coordination of testing strategies, and testing capacity. Furthermore together with many Member States, the Commission has launched joint procurement tenders for testing materials. In light of this, we would like to ask the following question:

Could the Commission please describe the situation of antigen testing in the Member States?
