

**Question for written answer E-006738/2020
to the Commission**

Rule 138

Dan-Ștefan Motreanu (PPE)

Subject: Recast of the Urban Waste Water Treatment Directive

The Urban Waste Water Treatment Directive (UWWTD) has not been revised since its adoption in 1991. The UWWTD was adopted to protect the water environment from the adverse effects of discharges of urban waste water and from certain industrial discharges.

A revision of the UWWTD could contribute positively to the Union's climate and environmental goals set in the Green Deal.

Does the Commission plan to propose a recast of the Urban Waste Water Treatment Directive?
