

**Question for written answer E-001038/2021
to the Commission**

Rule 138

Bettina Vollath (S&D)

Subject: Winter at the Kara Tepe reception and registration camp

Aid organisations operating at Kara Tepe report that the reception and registration camp is still not equipped for winter conditions – in contrast to what the Greek government has been saying.

1. Does the Commission believe the camps to be equipped for winter conditions as they can be found today (22 February 2021)?
2. How does the Commission assess the humanitarian situation on the Greek islands?
3. How will it be ensured that newly-constructed camps are equipped for winter conditions and that the requisite hygiene standards will be complied with?
