**to the Council**  
Rule 138  
**Filip De Man** (ID)

Subject: Sanctions against Russia

The Council has imposed a number of restrictive measures and economic sanctions against Russia since 2014. The latter have now been extended until the end of 2021.

Has the Council calculated the economic consequences for EU Member States of these economic sanctions?

What are these sanctions costing Member States?

Is the Council also considering sanctions against China on account of its repeated human rights violations?
