Subject: Action plan against disinformation in 2020

The package of measures to fight disinformation was presented in December 2018¹.

The measures have steadily increased in vigour in the meantime. Sadly, no results in connection with the action plan are available.

1. How many instances of disinformation were identified in 2020?
2. How many instances of disinformation can be attributed to the right of the political spectrum?
3. How many instances of disinformation can be attributed to the left of the political spectrum?
