Subject: Military equipment for the Libyan Ministry of Defence

According to a media report, the Libyan Ministry of Defence is asking the EU to provide additional vessels and aircraft to be used to carry out missions including maritime rescue.

1. What new technical equipment needs has the Libyan Ministry of Defence notified to the Council, and what equipment has it officially requested?
2. What technical support does the Council plan to offer to the Maritime Sub-Working Group (MSWG) and the National Team for Border Security Management (NTBSM) in Libya?
3. Is the Council thinking of providing additional military equipment to Libya under the Peace Facility, and if so, what equipment?
