Subject: Impact assessment on the 'Fit for 55' package

Bearing in mind that the author of this question put the following questions to Commissioner Simson during the ITRE committee meeting of 15 July 2021, can the Commission say:

1. what role it attaches to low-carbon technologies in the 'Fit for 55' package;
2. whether provision has been made for any safeguard mechanism for the revision of the targets should the impact of the package be too punitive for businesses and consumers?
