

**Question for written answer E-004239/2021  
to the Commission**

Rule 138

**Moritz Körner** (Renew)

Subject: Debt policy

1. Does the Commission rule out bringing forward any legislative proposal during its legislative term to make joint debt issuance a permanent possibility, to be used during recessions for example?
2. Does it rule out bringing forward any legislative proposal during its legislative term to set up a mutually managed EU amortisation fund for national debt?
3. Does it see more advantages or disadvantages with the two above proposals?
