Question for written answer E-005209/2021 to the Commission
Rule 138

Peter Pollák (PPE)

Subject: Priority investment for the social and economic inclusion of marginalised Roma

communities in the Slovak Partnership Agreement for 2021-2027

Partnership agreements between the Commission and individual Member States are currently being finalised.

They set out the national authorities' plans for how to use funding from the European structural and investment funds over the 2021-2027 period.

These funds represent the cornerstone of Slovakia's strategy for improving the social and economic situation of marginalised Roma communities.

Could the Commission confirm whether the Slovak Partnership Agreement has sufficiently addressed priority investment for improving the education and employment prospects of marginalised Roma communities, as well as ensuring that they have better access to drinking water and sanitary services, and whether the desired results are achievable by 2027?
