

**Question for written answer E-000089/2022
to the Commission**
Rule 138
Cindy Franssen (PPE)

Subject: Transposition of the first revision of Directive (EU) 2019/130

Over 100 000 European workers die from work-related cancer every year. The Commission has been imposing restrictions on 27 carcinogenic substances in the workplace since 2014.

The first revision of Directive (EU) 2019/130 has been in force since 16 January 2018, with Member States being required to transpose it into national law by 17 January 2020 at the latest. However, the Commission's reply of 11 February 2021 indicated that Spain had not yet transposed the amendment to this directive into national law.

1. Can the Commission confirm whether Spain has since done so?
2. If not, what steps has the European Commission taken to urge it to comply?
