Subject: Operational coordination mechanism for the external dimension of migration  
(MOCADDEM)

Under the French Presidency, the Council adopted a decision on the operational coordination mechanism for the external dimension of migration (MOCADDEM) by written procedure. It concerns countries of origin and transit of regular and irregular migrants. Governments are expected to implement measures set out by the Council under the MOCADDEM. This includes, for example, the taking back of deported migrants. If they refuse to cooperate, the Council will mobilise the 'visa lever'.

1. How will the MOCADDEM be organised, who will prepare the individual meetings and what resources will the Council make available to this end?
2. Which countries is the MOCADDEM most likely to apply to and when will the final list of countries be drawn up?
3. Will operational measures also be laid down in the MOCADDEM and, if so, what kind?
