

**Question for written answer E-000992/2022  
to the Commission**

Rule 138

**Mircea-Gheorghe Hava (PPE)**

**Subject:** The amount of money that has been decommitted for each operational programme approved in Romania for the 2014-2020 programming period

According to the regulations applied for the 2014-2020 programming period, all programmes must go through a decommitment procedure established on the basis that amounts linked to a commitment which are not covered by pre-financing or by a request for payment within a defined period, including any request for payment for which all or part is subject to an interruption of the payment deadline or a suspension of payments, must be decommitted.

In this context, what is the total amount of money that has been decommitted for each operational programme approved in Romania for the 2014-2020 period?

The Commission must inform the Member State and the managing authority in good time whenever there is a risk of the decommitment rules being applied.

So far, has the Commission notified Romania about the new risk of decommitment rules being applied for ongoing operational programmes? Can it please state which ones are affected and what amounts are at stake.
