

**Question for written answer E-001453/2022
to the Commission**

Rule 138

Martin Schirdewan (The Left)

Subject: Corporate complaints about 'regulatory barriers'

Member States may use justified measures to protect their domestic markets in the name of public interest objectives, such as the protection of public policy, public health and public security. Nevertheless, several stakeholders have repeatedly raised concerns about 'regulatory barriers' inside the single market and are calling for a stronger EU governance system to remove such 'obstacles'.

1. How many corporate complaints about 'regulatory barriers' in the single market has the Commission received in the last three years?
2. What are the issues that have been raised most prominently and how has the Commission responded to these complaints?
