Member States, who are responsible for providing mental health services on their territory, are called to provide such services to beneficiaries of temporary protection under the Temporary Protection Directive\(^1\). The Commission supports Member States in this, inter alia by providing EU funding.

The Commission signed an agreement\(^2\) with the International Federation of Red Cross and Red Crescent Societies to provide direct psychological trauma treatment and mental health support. A call for proposals for non-governmental organisations to support migrant and refugee mental health, focusing on displaced people from Ukraine, closed on 31 May 2022\(^4\).

The Commission recognised mental health as a priority in the context of several EU policy frameworks for the protection of children in general and persons fleeing from war in Ukraine, including children.

The Child Guarantee package\(^5\) acknowledges gaps in access to mental health care for children. The Commission discusses opportunities for including Ukrainian children with Member States in the scope of planned national actions.

The EU Strategy on the rights of the child\(^6\) offers the broader context for protecting and promoting child rights, including their mental well-being in the context of education, social inclusion and migration.

The Erasmus+ programme\(^7\) organises webinars and courses on integration of displaced Ukrainian children and staff into Member States’ education systems. A webinar on supporting the mental health and well-being of displaced children in school was held in April 2022.
