1. The meeting was published in accordance with the rules and the organisation registered in the Register at the request of the Cabinet of the Commissioner. Moreover, the meeting was published on the official agenda of the Commissioner. The Commission does therefore not see a need to take any further measures. It needs to be underlined that the proposal for this meeting came upon initiative of a Member of the European Parliament, who was accompanied during the meeting by persons belonging to the organisation referred to by the Honourable Members.

2. and 3. The decision to meet an organisation is the decision of each Member of the Commission and depends on the evaluation of the need for him or her to have an in-person meeting with a given stakeholder in the light of other available means of communication between stakeholders and a Member of the Commission. In this regard, a meeting does not mean that a Member of the College shares the objectives or political views of the stakeholder met. This is also true for meetings with Members of the European Parliament. As regards such contacts with Members of the European Parliament, the Commission and its Members are regularly present in the European Parliament, in the Plenary and in committees, and respond to parliamentary questions. These institutional contacts allow regular direct communication between Members of the European Parliament and Members of the Commission.
