Subject: Frontex-Satellite services for EU Member States

Frontex uses various satellite services for migration control in the framework of the European Border Surveillance System Eurosur. Member States may request the use of such services. An additional purpose is to fight cross-border crime.

1. How many requests from agencies/EU Member States did the Frontex-based Eurosur Fusion Services receive from Member States in 2020 and 2021 in relation to the 'smuggling of migrants', and in how many cases were satellite services subsequently provided?
2. How many detections or seizures resulted from the satellite services provided by Eurosur Fusion Services?
3. In how many cases have Eurosur Fusion Services requested the use of commercial satellite services for this purpose and what is their resolution?
