The Commission is considering using its empowerment to adopt a delegated act to amend Regulation (EU) 2018/848 by adding detailed production rules for sea salts and other salts, in line with the objectives and principles of organic production. It is too early to prejudge the salt production techniques that might be considered in line with the objectives and principles of organic production and the possible detailed production rules. The relevant working documents currently under discussion with the Member States’ experts are publicly available on Europa.
