Subject: AccessibleEU – state of play

In March 2021, the Commission adopted its disability rights strategy for 2021-2030,

announcing as one of the strategy's flagship initiatives for 2022, AccessibleEU, a European resource centre to make accessibility policies more coherent and facilitate access to relevant knowledge.

1. What steps have already been taken to set up AccessibleEU?
2. How have disability organisations been involved in drawing up this inventory?
3. National authorities have an important role to play in the AccessibleEU platform. How are the Member States being involved in establishing AccessibleEU?
