Rule 138
Guido Reil (ID)

Subject: Ostracising of accredited parties

Does the Commission agree that the systematic ostracising of an accredited party by an unofficial alliance of all other parties, for instance through targeted manipulation of the rules on the nomination of Parliament's oldest member, or by permanently denying it a vice-president's post, or by denying it what is otherwise customary funding from a party-affiliated political foundation, must be regarded as problematic, at the very least, in the light of Article 2 of the EU Treaty?
