

Question for written answer E-002634/2022
to the Commission
Rule 138
Mara Bizzotto (ID)

Subject: EU funding for companies manufacturing synthetic 'meat' and 'milk'

In recent years, more and more private companies have been developing techniques to artificially manufacture meat and milk in the laboratory.

Given the above, can the Commission state:

1. with reference to the answer to my question P-001990/2022 'Milk production without cows: the biggest plant in the world opens in Denmark', did Remilk receive EU funding prior to 2021?
2. which companies or laboratories involved in the manufacture of synthetic meat and milk have received EU funding since 2014, and what were the amounts?
