Under the ESPA\(^1\) 2021-2027, the “Digital Transformation” programme (EUR 753 million EU contribution) includes, among others, measures for public digital services and independent living. Furthermore, under the 13 Regional Programmes, EUR 694 million (EU contribution) have been allocated under Specific Objective 1.2\(^2\), including actions for e-inclusion services.

In accordance with the shared management principles of the Cohesion policy Funds, project selection and development come under the exclusive competence of the national management authorities, provided that there is compliance with the relevant legislation.

The shared management funds 2021-2027 contain a horizontal enabling condition requiring a national framework to ensure the implementation of the Convention on the Rights of Persons with Disabilities (UNCRPD). Furthermore, the Funds Common provisions Regulation, namely in article \(^3\) on Horizontal Principles, indicates that in particular, accessibility for persons with disabilities shall be taken into account throughout the preparation and implementation of programmes.

The Commission services invite the Honourable Member to contact\(^4\) the relevant managing authorities in order to discuss the proposed project and funding possibilities.
