Subject: Follow-up concerning the objective of increasing the employment rate by 2030

In the March 2021 European Pillar of Social Rights Action Plan, the EU set a target of having at least 78 % of the population aged between 20 and 64 in employment by 2030.

1. Does the Commission have a clear vision of how it aims to meet that target?
2. What measures have already been taken that are having a significant positive impact on increasing the employment rate in the EU?
3. Will the Commission take additional measures to ensure that the target is met by 2030?
