Subject: Approval of CAP Strategic Plans

On 31 August 2022, the Commission formally approved a first package of Common Agricultural Policy (CAP) Strategic Plans, drawn up by seven Member States, including Spain, setting out how the new CAP will be implemented in each of those Member States.

Given that the new rules are due to enter into force on 1 January 2023:

Can the Commission provide information on the status and progress of the remaining Strategic Plans pending approval?

Does it consider that all of them will be ready for the entry into force of the reform next year?
