

**Question for written answer E-002922/2022**  
**to the Commission**  
Rule 138  
**Clara Aguilera (S&D)**

Subject: Approval of EMFAF operational programmes

According to the information available to us, the Commission has approved only five of the operational programmes under the European Maritime, Fisheries and Aquaculture Fund (EMFF) for 2021-2027.

Given the fact that the Multiannual Financial Framework has been up and running for some time, these programmes should be under implementation by now,

Can the Commission provide information on the status and progress of the remaining operational programmes pending approval?

Can the Commission explain the delay in approving all these programmes?
