Subject: Global Fund Seventh Replenishment Conference

The Global Fund's Seventh Replenishment Conference took place in New York between 18 and 21 September 2022. The fund has proved to be an efficient and effective tool in the fight against AIDS, tuberculosis and malaria. Its open and flexible structure has made it possible to support the ongoing responses against COVID-19 and monkeypox. Several Member States have already announced a substantial increase in their future contributions to the fund as part of efforts to achieve the UN Sustainable Development Goals for 2030.

1. Will the Commission commit to a significant increase in support for the Global Fund, pledging 30 % in additional finances?
2. Will the Commission propose that the scope of the fund be expanded and more flexibility be provided to respond to emerging diseases such as COVID-19?
