

**Question for written answer E-003240/2022
to the Commission**

Rule 138

Vlad-Marius Botoș (Renew)

Subject: Renegotiation of Romania's National Recovery and Resilience Plan

In statements to the Romanian press, some by the Minister for Investments and European Projects, Marcel Boloș, the Romanian government has repeatedly declared that it intends to ask the Commission to renegotiate the National Recovery and Resilience Plan (NRRP) in order to be able to add irrigation systems to the list of funded projects.

Could the Commission please inform me if the Romanian government has officially sent the abovementioned irrigation projects to the Commission and/or a formal request for the renegotiation of the NRRP?
