

**Question for written answer E-003482/2022
to the Commission**
Rule 138
Cindy Franssen (PPE)

Subject: Revision of the directive on safety and health regarding work with display screen equipment

On 28 June 2021, the Commission presented the EU Strategic Framework on Health and Safety at Work 2021-2027.

It proposed that, as a result of the increase in teleworking, Council Directive 90/270/EEC of 29 May 1990 on the minimum safety and health requirements for work with display screen equipment (fifth individual Directive within the meaning of Article 16(1) of Directive 89/391/EEC) should be updated and revised in 2023.

1. How is the Commission organising the assessment of the current directive?
2. What is the social partners' involvement in the assessment?
3. When in 2023 will the Commission present a revised directive?
